# IGN/JPL Analysis Center: Status and plans

Pascal Willis<sup>(1,2)</sup>

- (1) Institut Geographique National, France
- (2) Jet Propulsion Laboratory, California Institute of Technology, USA

Context:

- back to France after 5 years at JPL (Aug 2006)
- Future activities under discussion

(tentative) plans for the future:

- Aug - Oct 2006: automated AC at JPL (no control, no change)
- Oct 2006 - ....: AC at IGN

Plan for future products:

- continue the same weekly submissions
- 1 new cumulative solution (fall 2006)
- Need for a complete recomputation in 2007 (GGM02C)?

Open issues:

- orbits?
- monthly solutions?
- More frequent cumulative solutions (positions/velocities)?
